IIT Madras

Team Action Plans

Purpose

The purpose of our SPG Project team is to collaboratively design and apply a structured framework that integrates mindfulness, sustainable productivity, and continuous skill development to drive leadership and professional excellence through clear goals, defined roles, accountability, and shared norms. By emphasising alignment, transparent communication, measurable milestones, and continuous improvement with team efforts. Our team is highly diverse, comprising individuals from diverse backgrounds, including different genders, geographies, and academic and technical skills.

Team Details

Team Member Name	Email/Contact Number
1. Pranita Sinha	21F3000843@ds.study.iitm.ac.in / 7541814433
2. Adamya Vatsalya Sharma	21F3000432@ds.study.iitm.ac.in/ 7310552684
3. Shubhangi Sharma	22F2000167@ds.study.iitm.ac.in/ 93102 68313
4. Prachi Kushwaha	22f3002014@ds.study.iitm.ac.in/ 81278 14804
5 Utkarsh Omre	23f3000151@ds.study.iitm.ac.in/ 78970 27725

Team Action Plans

Transition Processes

Periodically, Our team need to focus on planning and/or evaluation activities to guide the accomplishment of team goals. Processes include setting goals and specifications and formulating strategies to achieve them.

Suggested Questions	Team Action Plan
a. What are our performance goals (e.g. grade, innovation, quantity of work)	Our performance goals will focus on academic excellence, quality & Innovation. We will work together to create excellent and creative work and will adhere to the timely completion of reports, establishing measurable deliverables to track progress and assess our impact effectively.
b. What are our learning goals? What knowledge and/or skill development will we focus on together?	Our learning goals will focus on knowledge enhancement and improving our skills based on WEF core skills of 2030. Together we will learn on developing structured planning, goal-setting frameworks, and work on continuous skill development through improved presentation, creative thinking and analytical thinking.
c. What are our people goals? (e.g. enjoying teamwork, making new friends, becoming potential professional work colleagues)	Our people goals will focus on interpersonal and professional relationship building within the IITM BS community through effective team collaboration, a shared growth mindset that promotes not only personal development but collective learning experiences, and enjoying the journey of growth together.

Team Action Plans

Action Processes

Goal accomplishment is achieved through continuous progress tracking, system management, team support and backup strategies, and coordinated task execution.

Suggested Questions

a.How will we organise leadership for this project ?

b.What roles would the other members play?

c. How are decisions made?

Team Action Plan

Project Leader: Pranita Sinha
Leadership is centralized under one project leader to ensure clear direction and accountability throughout the project lifecycle.

Each member contributes according to their individual strengths. Students provide academic insights and research support. Roles remain adaptable to promote equal involvement, collaboration, and cross-functional skill-sharing.

Team decisions are made through group consensus or majority vote to ensure collective agreement. For urgent or critical issues, the project leader makes final decisions after gathering team input.

Team Action Plans

Action Processes

Goal accomplishment is achieved through continuous progress tracking, system management, team support and backup strategies, and coordinated task execution.

Suggested Questions	Team Action Plan
d.How will we work together at different stages?	Team members work independently on assigned tasks, then reconvene in a single meeting to present individual contributions, provide feedback, and finalize deliverables collectively.
e. What communication mode will we use and when?	The team uses Google Meet for all discussions, progress updates, collaborative reviews, and pre-submission meetings to ensure alignment and quality control.

Team Action Plans

Action Processes

Goal accomplishment is achieved through continuous progress tracking, system management, team support and backup strategies, and coordinated task execution.

Suggested Questions	Team Action Plan
f. When and where will we hold our meetings? Describe meeting protocol.	Meetings will be conducted weekly via Google Meet, with additional meetings scheduled if required. An agenda will be shared beforehand, each member will provide updates, and action points will be summarized at the end to ensure clarity and accountability.
g. How will we share the workload (quantity, quality, time)? What will we do when a team member is doing more (or less) work than others? What happens if someone is legitimately unable to complete their role in an assignment?	Work will be divided based on skills and availability, ensuring equal contribution from all members. If imbalance occurs, tasks will be reassigned after discussion. In case of genuine constraints, the team will provide support and adjust responsibilities accordingly.

Action Processes

Goal accomplishment is achieved through continuous progress tracking, system management, team support and backup strategies, and coordinated task execution.

Suggested Questions	Team Action Plan
h. How will we help team members (sharing knowledge and resources)?	We will maintain a shared drive for resources and encourage peer learning through discussions and feedback sessions. Members will support each other by sharing relevant materials and assisting in areas where someone requires additional guidance.
i.When and how will we review progress on goals? What is our process for setting and meeting deadlines?	We will review progress through weekly meetings and track tasks using a shared project sheet. Internal deadlines will be set at least three days before official submissions to allow time for revisions. Delays will be discussed collectively and resolved through task redistribution if needed.

Team Action Plans

Interpersonal Processes

Effective relationship management is critical throughout the team lifecycle to ensure the successful achievement of team objectives. This includes proactively managing conflict, fostering motivation and confidence, and maintaining a positive and emotionally intelligent team environment. Strong interpersonal processes enhance collaboration, trust, and overall team performance.

Suggested Questions	Team Action Plan
a. How will we manage conflict if it becomes personal and not task related?	If conflict becomes personal, we will address it promptly through professional and solution-focused dialogue. The concerned members will first resolve the issue privately, keeping team objectives at the center. If required, a neutral member will intervene to resolve any conflict. Our priority will be maintaining trust, respect, and team effectiveness.
b. What will we do to make the experience of working together a positive one?	We will create a positive culture by clearly defining roles and encouraging open communication. We will respect and acknowledge the diverse perspectives and opinions of each team member. Our goal is to create a collaborative and psychologically safe environment.
c. How will we celebrate successes & commiserate goals we do not meet?	We will recognize individual and team contributions to reinforce motivation and performance standards. Milestones will be acknowledged to sustain morale and commitment. If goals are not achieved, we will conduct a structured reflection to identify improvements without blame. Continuous learning and collective ownership will guide our progress.
